

We wholeheartedly agree that the future of those lines of business that support the production, create new jobs and are actively working towards the development, in conjunction with constant quality control products.

To do this, we do make every effort - at our disposal is the equipment for a full cycle of processing, sorting, packing and delivery puho-raw feathers.

Also, our products undergo laboratory tested for compliance with all requirements for the quality of the goods, because puho-feathers mixture must be properly prepared, sorted and packaged to meet all veterinary and transit rules.

Our working policy is always based on stable relationships, in which the most valuable is favorable opinion about the company, and therefore we want the company LTD "FeatherLand" was for you to just such an example
